

British Orthopaedic Foot and Ankle Society

22nd Principles of Foot and Ankle Surgery Course

For higher surgical trainees

11th & 12th June 2018
DWM Duxford, Cambridge

www.bofas.org.uk

"An excellent course with great cases. Would strongly recommend to colleagues. Great faculty!"
"Perfect for the new SpR right up to exam level"
"The model for future training!"

The BOFAS principles course is an exciting new course designed to teach the core foot and ankle content in the FRCS(Orth) curriculum in a informal and interactive environment. There is emphasis on clinical examination cases, discussion groups and opportunity for simulating exam conditions.

Course Director

- Mr Tim Williams (Colchester)
Faculty of BOFAS accredited trainers

Course Content

- Clinical examination of the foot and ankle
- Foot and ankle anatomy and biomechanics
- Degenerative foot and ankle conditions
- Acquired flat foot
- Deformity and neuromuscular disorders
- Rheumatoid disorders
- Diabetic foot and Charcot arthropathy
- Principles of orthotics
- Foot and ankle trauma

Teaching Style

- Lectures
- Clinical case presentations and case based discussions
- Divas

Cost Fully sponsored by BOFAS (Requires a repayable cheque deposit of £100)
